

Retirement benefits: Give recruitment and retention efforts a boost

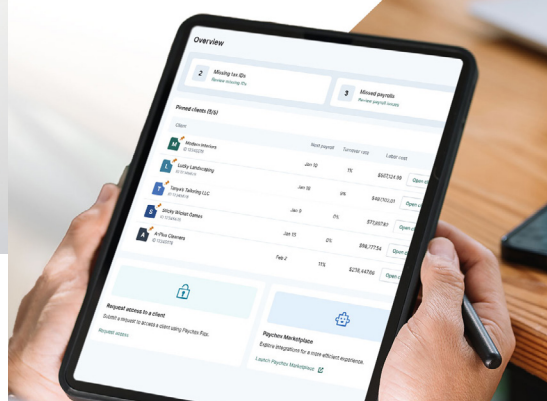

Retirement savings plans, like a 401(k), can help business owners create long-term financial security for themselves and their employees. They can also be a strong component of an employee benefits package and a valuable tool for recruiting and retaining employees—especially in a competitive job market.

Make workplace retirement plans a reality for your clients with help from Paychex

Working with Paychex®, the nation's leading 401(k) plan provider, can be a sound option for your clients' retirement plans. You and your clients can trust the experience of retirement solutions from Paychex and benefit from:

- A variety of plan options, including 401(k), the Pooled Employer Plan (PEP), and more
- Our knowledge of legislation and regulations to help ensure compliance
- Ability to integrate retirement plan tasks with payroll to automate plan contributions and data collection
- Streamlined recordkeeping and minimized paperwork
