Rethink HR: Streamline, Simplify, and Save

51% | of leaders who outsourced HR administration say the number one benefit was having fewer mistakes.¹

HR administration can cost clients time and money when errors are made. Reducing the likelihood of mistakes may help clients improve their bottom line and their operational efficiency.

Outsourcing some or all HR administration can be beneficial to clients who are challenged with:

- Attracting and retaining qualified talent
- Offering competitive and valuable employee benefits
- Time-consuming HR administration tasks without the expertise to complete them
- Proactively maintaining HR regulatory compliance at the federal, state, and local levels.
- Managing the hiring process and keeping track of applicants and paperwork
- Risk management, such as developing a cybersecurity plan and deciding on cyber liability insurance coverage to protect against damages
